

NAME

TECHNOLOGY

EMAIL (OR PHONE)

Goal:

Explain a specific technology to someone using common words and shapes. It can be how a technology is used or how it functions.

Steps:

- [1] Think of a technology that you are familiar with. It can be old or new, real or imagined.
- [2] Find the shapes and words you want to use and cut them out.
- [3] Arrange the shapes and words on the reverse side of this page in a way that explains the technology. Imagine that the person you are explaining it to doesn't know anything about the technology. Note: You may use any number and combination of words and shapes; you can cut, fold and paste; but you can only use what has been provided.
- [4] Make sure all of the pieces are glued in place.
- [5] Fill out your name and contact information.
- [6] Using the binder clips, hang the flyer up to display and dry on any of the hooks on the window.

We will scan all of the flyers and make them available online. We will list all of the contributors' names together.

NOTE:

BY PARTICIPATING IN THIS EXERCISE, YOU GIVE THESE FLYERS WITH YOUR COMBINATIONS OF IMAGES AND WORDS TO THE PUBLIC TO BE USED, REPRODUCED, SHARED, MODIFIED OR REMIXED.
