

# TECHNOLOGY + COLLABORATION + COMMUNITY + CHANGE

DETROIT  
2012

## LECTURE!

**INITIATE**  
SATURDAY, 2/25, 5-9:30 PM  
MOCAD  
4454 WOODWARD AVE.

Initiate will explore creative uses of primarily open source technology and open source approaches to creating art and social change. Join us for short presentations and open dialogue featuring local, national and international artists, technologists and community organizers.

## WORKSHOP!

**DISCOTECH**  
SUNDAY, 2/26, 1:30 - 4:30 PM  
MT ELLIOT MAKERSPACE  
CHURCH OF THE MESSIAH  
231 EAST GRAND BLVD.

Discotech (Discovering Technology) is a multimedia mobile neighborhood workshop fair. Participants will learn more about the impact and possibilities of technology within our communities and take part in interactive, multimedia workshops. This will include a workshop introduction to openFrameworks, a cross-platform C++ library for creative coding. It will be a chance to experiment with building new systems for interaction that move away from the screen and into physical space.

## ABOUT!

Technology can be used to transform communities, empower people and create innovative works of art. This week long event series will explore how open source technology can be used to do that work within Detroit. This program features members of openFrameworks which is hosting their annual worldwide developers conference in Detroit. openFrameworks is an open source C++ toolkit designed to assist the creative process by providing a simple and intuitive framework for experimentation.
