DISCOTECH

DROP IN WORKSHOPS
SUNDAY, 2/26, 1:30 - 4:30 PM
MT ELLIOT MAKERSPACE
CHURCH OF THE MESSIAH
231 EAST GRAND BLVD.

Discotech (Discovering Technology) is a multimedia mobile neighborhood workshop fair. Participants will learn more about the impact and possibilities of technology within our communities and take part in interactive, multimedia workshops. These workshops will range from learning how your computer works to basic electronics to an introduction to alternative energy. The Coalition will also be sharing community literature and screening "The Internet is Serious Business" which investigates how the Internet's physical infrastructure works, who owns the Internet, and why it matters.
